

Imperial College Union
Deputy President (Clubs & Societies) Report
A Report by the Deputy President (Clubs & Societies)

Lottery Funding

I am currently in the process of filling in a 30 pages lottery funding application for the building project. The Community Building programme from the Big Lottery Fund is most suitable programme for us and it grants a maximum of £500,000. The programme requires the building to increase participation within the local community, which falls into the aims of the project.

Clubs and Societies Review

It still seems to be very difficult to meet people for the clubs and societies review, so I have decided to do this in SAC, which was yesterday.

New Clubs

The New Clubs Committee have now met and 15 new clubs have been started. I am currently looking at how the system can be improved as some complaints were received.

Sports Partnership

Under the new partnership, a new member of staff was hired by Sport Imperial based in the Union. The terms of reference of the partnership has been written and it will be sent to the Executive Committee for consultation.

Clubs Tracking

Currently programming a system to allow officers to do administrative tasks online such as submitting documentations, producing mailing list and maybe submitting and approving claim forms.
