

DPEW's Report
A report by the DPEW

In General

Again, this has been a fairly quiet time in terms of formal business, which has allowed me to concentrate on other long term issues and hand over etc.

Training

Been working with Union staff to organise this years Sabb training and handover. Slightly different to last years (and I think we're saving money) in that it should cover more skill son project management etc. I'll also be organising some in-house training with NUS.

Review of Exam Feedback

As reported last time, I've submitted some work on examination feedback to College and will update you when I know what is happening.

Trade Unions

I've been working with John on implementing recommendations regarding trade union activity within the Union. NUS are assisting us on this through both the local Regional Office, and their full time Trade Union coordinator, which is proving very useful.

Subwarden Interviews

There has been an absolute deluge of subwarden interviews this term, not helped by the opening of Southside Hall. I've continued to do many of these but a massive thank you to everyone else who has helped: James Fok, Jennifer Morgan, Mark Flower, Kirsty Patterson, Eric Lai and Jon Matthews.

Meetings etc

Usual array of College meetings and casework.

Leave

I took a couple of day annual leave. Which was nice.
