**TOUR PURPOSE**

The annual tour abroad remains an important fixture in the ArtSoc calendar. The tour for ArtSoc is regarded as an alternative opportunity for arts appreciation for our members who would like to experience something different from our weekly Wednesday meeting where ArtSoc sells student-discounted tickets for musicals, dances and dramas. Its aim is to provide our members with a fantastic opportunity to appreciate the arts and culture of a different country. This year, ArtSoc is heading to Paris a city with her own unique and enthralling cultural landscape – sure to offer a memorable experience for our members. Paris was chosen this year as it is a cornerstone where modern arts is centred upon. Part of our programme includes a guided tour of the Eiffel Tower, a visit to Chateau De Versailles as well as the Notre-Dame and Louvre where members might want to explore the Da Vinci Trail. In addition, ArtSoc will also be getting the two-day Batobus pass to allow our members to travel to the key attractions in Paris for them to explore these sites at their leisure pace.

**EXPENDITURE**

TRAVEL EXPENSES - Description	Cost/Person	Total Cost
Eurostar (Return) [London to Paris] VAT Receipt	£42.61	£852.17

### **Caving Tour Purpose**

The caves in the Vercors are extremely varied, but in general far larger than UK caves. In the north deep cold alpine system dominate, offering 600m+ deep trips, many of which are so massive that they require a 'siege mentality' to equip the many pitches with ropes over a number of days and teams rig and derig. These trips are impossible to run in the UK where the deepest vertical caves are around 200m deep and can be easily rigged and derigged in one trip by a competent team. The requirements of alpine caving are also more rigorous, the caves being colder and sharper, the rigging requiring more skill in judicious selection of the original exploration bolts.

Caves in the South are more accessible for 'holiday caving', being generally warmer, more spacious and better decorated. They offer pleasant trips, where the challenge is in complex navigation and 3D puzzle solving. There are also a considerable number of extremely long and sporting canyons, which offer an alternative days enjoyment.

The Easter tour forms an integral part of our yearly peer-to-peer training. For 1st years, it allows them to experience the very peak of Sports Caving with a supportive team of more experienced members. 2nd years and the more advanced have an opportunity to learn and practice pitch rigging in a controlled environment (and due to the vast number of pitches, there's lots of practice to be had!). For all it offers an extremely sporting week of exertion that will get oneself fit enough to take on any and all exploration challenges worldwide.

For our first years this will also be the first trip to the Alps for many of them, and we hope to introduce them to the stunning scenery and hopefully start a lifelong fascination.

By going on the Eurostar / TGV, we fully cooperate with the Union's green policy on reducing emissions, and allow ourselves to bring as much rope as we can carry, rather than try to squeeze things into aeroplane baggage allowance. Naturally we will require hire cars to access the caving regions themselves. By hiring two separate cars we will have the flexibility to run simultaneous trips of varying ability, satisfy the level of skill of all members of our club. Accommodation has been found at the Villard de Lons campsite. The cost of a static caravan in the low season is nearly equivalent to camping, and offers a far more salubrious base camp.

### TOUR PURPOSE

The CivSoc International Tour, now in its eighth consecutive year, is undoubtedly the highlight of the society's year and is held in high regard by the Department of Civil and Environmental Engineering. The upcoming tour, planned for February 2009, will visit the German capital of Berlin. Due to the success of last year, this year CivSoc intends to keep the same tour size of 67 places.

The benefits of the International Tour are extensive. Students are exposed to Civil Engineering on a truly global scale, fuelling their passion for the discipline and arming them with an understanding for the industry and its history that isn't possible in the lecture theatre. The tour gives students a chance to see foreign cultures, encouraging some to live or work abroad in the future and ultimately promoting Civil Engineering as an exciting and diverse career path. Further to this, there will also be opportunities to visit some of the city's many cultural attractions including its many historical buildings. Three professional engineers will accompany us on the tour to give their insight, advice and professional opinion to the students as we visit projects around the city.

TOUR PURPOSE

We are travelling to Loughborough to compete in an inter-university dance competition - this is first time that the club has ever been to this competition. We are taking 5 teams to compete in four different categories, namely ballet beginners & advanced, tap beginners, contemporary advanced and jazz advanced. We have never before entered so many categories/taken so many of our club members on tour before, so this is a big event for us involving a large portion of the dance company enabling more people than ever before (beginners as well as advanced) to show off their dancing skills to a large audience in a competitive environment! We will be travelling up to Loughborough on the Friday night by coach, as the competition starts at 9 am on Saturday 14th Feb. There are almost 24 different universities/dance clubs competing and this is therefore a massive event for us - we are hoping to have a great success and beat the record number of trophies we gained last year at the Edinburgh Dance-Off. Also, we were only able to commit to partaking in this competition at a very late stage (after the Winter tours application deadline) due to a late confirmation of the Edinburgh competition, however I would like to ask if you could please consider this tour application period even though it just f

**NUMBER OF PARTICIPANTS**

<i>ICU Student Members</i>	<b>12</b>
<i>Other Participants</i>	0
<i>Total</i>	12

**TOUR PURPOSE**

This year's Spring Tour is to explore the Glencoe region of Scotland and to accomplish some of its highest peaks. It is intended for members to enjoy 6 days of fellwalking (1 day each way for travelling), from a base of a hostel situated in Glencoe. The reasons for visiting are:

- As arguably the finest mountains in Scotland, visiting this starkly beautiful highland area allows us, in accordance with our club constitution, to ensure members "enjoy walking in mountainous country".
- Leaving during the easter holidays, we are hoping to widen access "to enable novices to enjoy walking", inline with our constitution.
- During term time, our regular weekend trips do not allow for exploration of Scotland. Therefore this trip is outside the remit of weekend trips.
- Scotland is unfamiliar to many of our members. Therefore the trip aims to widen our member's access to mountainous scenery.
- April's weather will be suitable for walking; longer daylight hours with snow and ice receded/ing.

The trip will be judged a success if people have enjoyed safe mountain walking, progressed in their fitness and walking abilities, and formed new/ stronger friendships within the club.

**EXPENDITURE**

### NUMBER OF PARTICIPANTS

ICU Student Members	<b>15</b>
Other Participants	
<i>Total</i>	15

### TOUR PURPOSE

The first milestone that students want to achieve when they begin gliding is to go solo. This obviously requires a great deal of training, and for regular club members they can get to this standard in approximately 30-40 flights. This usually coincides with the end of the Easter term, and so many club members by this point will be close to solo. The aim of the Easter tour is to provide consistent and effective training, at an airfield they are comfortable with, so that everyone can progress.

The majority of our activities are ruled by the weather, meaning that it can be many weekends between club members' flights. It has been shown that even just a week of intensive training can be of much more benefit than the same number of flights spread over the course of a couple of months.

At the start of the Easter holiday the weather is also improving, the "soaring season" is just beginning. This means that flights also become better value for money, and so more experienced members want to start flying again, but may need some additional training before they are happy to fly on their own again.

Easter tour provides training for every level of club member, and allows them to make vast amounts of progress in a short space of time, whatever

### NUMBER OF PARTICIPANTS

ICU Student Members	<b>15</b>
Other Participants	
Total	15

### TOUR PURPOSE

To participate in the 2009 Blackpool hockey tournament. This is a well established tournament now in its 58th year, catering for competitive hockey in a festival atmosphere. Around 60 teams enter each year each playing a minimum of 10 matches. We feel that taking part in the tournament would not only provide members with invaluable pitch time, but allow them to socialise as a group, strengthening the clubs identity and ensuring its continuing success for another few years. We would also be looking to form ties with other participating clubs from around the country, hopefully leading to future events. More than 25 qualified umpired officiate the tournament, allowing members gain match experience in a safe non pressurised environment.

### EXPENDITURE

TRAVEL EXPENSES - Description	Cost/Person	Total Cost
Weekend minibus hire - 15 seater	£14.67	£220.00
Extra days minibus hire - 15 seater	£8.80	£132.00

<i>Total</i>	10

### TOUR PURPOSE

The main objective of the tour is to train at the KWF (karate world federation) headquarters in Japan with the best instructors in the world. The main purpose of the journey is therefore training. However it is also important for our members to have a feel and experience of the country that gave birth to karate. The events taking place there will revolve around regular training at the KWF dojo. Thus we shall pay a certain fee and be allowed to join in for training sessions with very senior instructors. The specifics will depend on the rank and willingness of each individual participant, and also on the availability of courses. There is also word of visiting other dojos around Japan to broaden the experience even more, however this is subject to confirmation and no data can be provided at this stage yet. Currently we are looking at 2-3 hours of training every day except the days of arrival and departure and 1-2 days reserved for visiting the surroundings (Tokyo museum etc. But the schedule is largely up to individual members). The benefits to members will be primarily a very solid week of intensive training and major improvements in technique and understading are expected. Also since training will be done with a variety of sen-seis and shihans, it is also expected that members will learn to thin

TOUR PURPOSE

The purpose of this tour is to apply many of the skills members have learned climbing indoors during our regular Westway sessions to climbing outside in a world-class climbing destination. This will be the first time many of our members are climbing on rock outside of the UK, and we hope it will spur an ongoing passion for the activity. Going to Verdon Gorge will also allow us to teach multi-pitch climbing skills to our members in a safe medium, which will increase safety and awareness in future club activities.

EXPENDITURE

TRAVEL EXPENSES - Description	Cost/Person	Total Cost
Car hire, seven days, compact car	£42.50	£510.00
Fuel for 500 km, per car	£12.50	£150.00

**TOUR PURPOSE**

Introduce members to Sport Climbing outdoors  
 Allow experienced members to gain further practise Sport Climbing.  
 Have fun and return safely.  
 Gain experience climbing on new rock types.  
 Gain experience climbing in different styles e.g. friction slab, cracks, overhangs etc  
 The range of sport grades mean that there will something for everyone to do.  
 The weather will be better than in the UK for all outdoor activities, particularly climbing.  
 There is walking and mountain biking in the area, which is different to that in the UK.  
 In addition to the above, the tour will fulfil some of the aims and objectives in the club's constitution (2.1, 2.3 & 2.5).

### TOUR PURPOSE

This rugby tour is the oldest annual rugby tour in the world! It has been running since the 1920's when St Marys Hospital Medical School started travelling to the South West; now 80 years on Imperial Medicals RFC are keeping the torch burning by playing the same 3 rugby clubs over the Easter Weekend: Redruth, Penzance and St Ives. Not only is this tour a brilliant opportunity for younger members of the club to get to know the older boys and experience a new style of rugby in the South-West, but it also raises the profile of the College in that part of the UK. Indeed with so much history our trip is eagerly anticipated by many locals. We will travel to Cornwall in minibuses and stay in hostel accommodation to help keep the cost of the tour low. With 30+ boys attending, and all their luggage to contend with it will be necessary to take 3 minibuses (2x ICU and our own) to Cornwall. In order to make the cost of tour as affordable as possible, particular in the current economic climate we would gratefully request a generous travel subsidy.

### EXPENDITURE

TRAVEL EXPENSES - Description	Cost/Person	Total Cost
Minibus hire for 5 days (2x minibuses)	£23.47	£704.00
Hostel (B&B) accommodation for 5 days for 30 people	£53.33	£1,600.00

### TOUR PURPOSE

This year we are looking at a series of short tours, this being the first one, to unify our club and encourage more girls to join. The aim of this trip is to go to Madrid, where an ex player is living for a year, and play a series of friendly 7s games, giving the possibility for new players to see what the rugby camaradery is like and hopefully encourage them to keep playing.  
We hope that this will be an opportunity for creating a permanent exchange between Madrid clubs and Imperial College.

**TOUR PURPOSE**

The Easter Trip provides an opportunity for this year's trainees to finalise their open water training. Open water lessons are taught and supervised by the club's many qualified instructors. By the end of the week, students will have completed their Ocean Diver and Sports Diver qualifications, enabling them to attend club trips to diving sites in the UK and abroad. The Easter Trip offers many students the opportunity to learn to scuba dive safely at a very low cost. It is also the main way in which the club recruits new divers to join in it's activities, and is where new members can get to know old ones and become part of the club's vibrant social life.

**EXPENDITURE**

### TOUR PURPOSE

Following the success of last years Spring tour to Orlando, Florida, we have decided to try something new this coming Spring. With the introduction of a competition circuit to the university wakeboard scene, and Imperials successful entry into the 2007 Student Nationals with 2 male riders reaching the finals of the mens B category and our only female entry winning the ladies category, additional training and riding has become necessary over the Easter break. Having had two successful tours to Orlando, Florida, we have decided to try somewhere new this year. We have chosen Antalya as our destination as one of the worlds newest and best cables is located there, and with the addition of a temperate climate a weeks training resulted last year in incredible progression throughout the team that took part. We hope to replicate last years success this year, giving our clubs members a chance to travel abroad, ride with some of the sports top professionals and progress the clubs skills in order to hopefully enable more riders to successfully compete in the 2009 student nationals. The tour is open to all members of the club, regardless of skill level.

### EXPENDITURE

TRAVEL EXPENSES - Description	Cost/Person	Total Cost
Return Flights to Antalya, Turkey	£200.00	£2,400.00

Between 16th Feb & 15th May
<b>SPRING</b>

**TOUR OUTLINE**

<i>Destination</i>	<b>Paris</b>
<i>Country</i>	<b>France</b>
<i>Travel Dates</i>	from <b>28th Feb 2009</b> to <b>1st Mar 2009</b>

**NUMBER OF PARTICIPANTS**

<i>ICU Student Members</i>	<b>6</b>
<i>Other Participants</i>	<b>0</b>
<i>Total</i>	<b>6</b>

**TOUR PURPOSE**

The venue for our tour is in Paris. We, the West Indian Society, have been invited by one of the students at the University of London Institute in Paris to contribute at one of their events. One aspect of the event is a display of the different cultures that reside at the university. This university focuses on French culture, language and literature and as a result the diversity of cultures is minimal compared to that of Imperial College which focuses on a larger subject area. Hence, our presence there will be a significant contribution toward their event. At this event, we intend to perform a dance routine as well as verbally inform our hosts about Caribbean culture and Caribbean life in London. While on tour, we hope to strengthen or relationship and contacts at ULIP so that future members of both universities can exchange resources for future events in London/Paris. The difference in having this event in Paris compared with London, is that London is a very diverse city and the Caribbean culture can be observed in most places. This implies that many students will already be aware of what we have to offer which is not the case at ULIP. We will be arriving in Paris after noon on Saturday 28th February and departing the following day at noon.
