Snooker Club Contingency Claim
A paper by the DPCS

Background:

Due to the building works, RCC Billiards & Snooker Clubs Rooms were put out of commission to allow the works to take place. During this process the Snooker tables had to be disassembled and reassembled and when this was done one of them was put back in the wrong place. This made a certain portion of the table unusable as it was too close to the wall.

Some time after this an energy drink was spilt on the table and it needed refelting. It was decided that this would be a good time to also move the table at a cost of £200. At this point a verbal agreement was made that this would be covered by the Building Contingency however this is not eventuated and the club has had to cover the cost themselves. .

Decision required:

To reimburse the club from either Exec contingency pot or Building works budget to the amount £200*
