Clubs turning into Projects

A paper by the DPCS

Background:

Over the last few months the Deputy President (Welfare) and I have been working hard to put the framework in place to allow Projects to function. This has involved rewriting policy and discussions with the current RAG and CAG Chairs allowing them to give their input. At last we feel there is sufficient backing to allow the clubs who have expressed an interest to formally move to become projects.

The clubs who would like to become projects are:

E.quinox
Be Heartful Friends (BHF)
Save the Children
IC Interact

We also identified the following clubs and asked them if they would like to become Projects but they have declined.

IC Aid to the Balkans (ICAB)
Students in Free Enterprise (SIFE)
Women in Science, Engineering and Technology (WSET)
Friends of Medecins Sans Frontieres
UNICEF

Decision required:

To move the clubs who have consented to become projects from their Management Group to RAG/CAG as appropriate, as indicated in the first table.
