At this point of the meeting, once agreements had been made on what to fund for each club, CSPB had to cut the total amount initially awarded to clubs to bring the figure to that which was available to distribute. Below is the table showing the cuts and reasons for each.

Name of Club	CSPB Initial Allocation	CSPB Final Allocation	Final Allocation noted
Badminton	428.4	209.916	Cut applied as only a limited amount of money and we felt that Badminton could survive this
Cricket	820.67	£188.75	We felt that this was an early decision, and we were more harsh on other societies later in the evening
Lawn Tennis	200	0	With the amount of appeals in and the limited amount of money to go around it was felt that lawn tennis were in a better position to survive not getting their appeal than some other societies
Ultimate Frisbee	386.4	189.336	We had to reduce this amount due to limited funds, this is in line with most other cuts
Belly Dancing	1000	805	23% of your reduced cost
Bridge	133	65.17	We had to reduce this amount due to limited funds. This is in line with most of the other appeals that were cut
Canoe	165	80.85	We had to reduce this amount due to limited funds. This is in line with most of the other appeals that were cut
Caving	164.34	80.5266	We had to reduce this amount due to limited funds. This is in line with most of the other appeals that were cut
Debating	253	126.5	We had to reduce this amount due to limited funds. This is in line with most of the other appeals that were cut
ICSM Basketball	250	122.5	We had to reduce this amount due to limited funds. This is in line with most of the other appeals that were cut
ICSM Mountaineering	250	200	ICSM made a strong case that you would not be able to continue if we cut this by 50% as we had to with other appeals. We compromised on £200
Leonardo Fine Arts	756	656	A&E made a strong case for minimising any cut to LeoSoc - based on the limited funds this was cut slightly but much less than other appeals
Outdoor	580	284.2	We had to reduce this amount due to limited funds. This is in line with most of the other appeals that were cut
Palestinian	207	101.43	We had to reduce this amount due to limited funds. This is in line with most of the other appeals that were cut
Ice Hockey	637	500	A strong case was made for cutting this less than other appeals and so, while due to limited funds it was cut slightly, this was less than some others
Christian Union	300	300	Strong appeal by the SCC that we decided should not be further adversely affected by cuts
Quiz	86.25	86.25	Strong appeal by the SCC that we decided should not be further adversely affected by cuts
ABACUS	110	110	Strong appeal by the SCC that we decided should not be further adversely affected by cuts
Labour	25	25	Strong appeal by the SCC that we decided should not be further adversely affected by cuts
Anime	50	50	Strong appeal by the SCC that we decided should not be further adversely affected by cuts
Surf	456.75	100	Reduced significantly as we have very limited funds and it was felt the club would survive either having to increase prices or running one less weekend trip
Synchronised Swimming	400	400	Accepted the case the RCC put forward for not reducing Synchro any further
Underwater	288.16	141.1984	We had to reduce this amount due to limited funds. This is in line with most of the other appeals that were cut. We know

			Underwater are struggling but felt that in the grand scheme of their budget the extra 145 off would not be that significant and it allowed us to help smaller societies that we couldn't have otherwise
Wushu	419	255.31	We had to reduce this amount due to limited funds, this is in line with most other appeals. We respect this may make it difficult for Wushu but felt the club could survive it

CSPB agreed that any funds over the £6,000 mark would be taken from the ADF.

Meeting finishes at 12:30am.
