

Council
9 December 2014

Imperial College Union
Council Report
By Deputy President (Clubs & Societies), Abigail de Bruin

NEW ACTIVITIES COMMITTEE

By Council, the New Activities Committee will have met for the third time (on 2nd December) and I will be able to verbally update our current standing on new clubs.

ACTIVITIES DEVELOPMENT BOARD

The Activities Development Board has now met for the first time, awarding money at various levels of requested funding to 5 clubs (RSM Netball, Krav, Go, APES and Comedy) for what promise to be an exciting set of development opportunities. Sinfonietta also received money for a contingency claim.

GIAG

Give It A Go will be running again in January 2015. Applications will be opening on the website shortly and we'll be aiming the January scheme towards clubs that are doing new and exciting things or are looking to significantly increase their membership. They will also potentially have the opportunity to have a stall at the Union's New Year Fair.

Tours

I have been working with a subset of CSPB to review the tours policy.

Student Trustees

I sat on the interview panel for the new appointed Student Trustee, this proved an interesting and valuable experience and I hope our new trustee will take to the role well.

MG Restructure

I have continued working with our Management Groups on this and it is starting to show progress. Hopefully this will provide some useful outcomes within the near future.

Storage

We have had a number of concerns raised about the storage within the union over the last few weeks. This has led to the decision to launch a storage audit so that we have a more thorough understanding of what the situation is. Obviously storage will never be easy on a campus where space comes at such a high premium but hopefully we will be able to assess and work with the current situation.

Women of Imperial Week

I have continued to work on this programme of events with the Union President. Progress has been promising.
