

Union Bar Fireplace

June 2018 *

This paper concerns the fireplace in the Union Bar.

The Union Notes

1. There is a working, viable fireplace with flue in the Union Bar.
2. The fire has not been lit for some years, despite this having been done regularly in the past.
3. Fires are conducive to the production of heat and “atmosphere”.

The Union Believes

1. It is valuable to preserve the traditional look and feel of the Union Bar.

Caravello (**CGCU**)

2. If the fireplace is never used, it risks falling into disrepair, compromising the traditional look and feel of the Union Bar.
3. Sometimes it is cold in the Union Bar, and lighting the fire would go some way to resolving this.

The Union Resolves

1. The fireplace in the Union Bar shall be lit at least once per annum, ensuring that due regard for the fact that the fire is hot is given and appropriate precautions are taken to ensure the health and safety of members.
